

PRO Series Standalone AMU:

To accelerate the finishing process add heated air make-up system and watch production soar.

Air make-up units provide constant air temperature regardless of other environmental conditions, ensuring balanced pressure, workers comfort and overall efficiency. Provide replacement air in any shop environment.

- 98% fuel efficiency 30:1
Turn down ration for ultimate temperature control
- 1.2 To 3 million btu/hr
- 10,000 Cfm to 40,000 cfm
- 50% fresh air mixing on bake
- High efficiency direct fire burner
- Heats up to 150 Degrees
